

### **ENVIRONMENT POLICY VIBAC S.p.A.**

VIBAC S.P.A., is committed to preventing pollution, to safeguard and protect the environment, and to pursue the continuous improvement of its environmental performance by minimizing the risks associated with activities carried out and the products/services delivered. The sensitivity to the importance of respecting the environmental balance has manifested itself in the various choices made in these years that, in addition to complying with the legislative provisions, tend to continuously improve environmental performance. Just because of its constant commitment to VIBAC S.P.A. VIBAC S.p.A. confirms that it maintains an Environmental Management System compliant with UNI-EN ISO 14001:2015 standards, which is an effective means of pursuing a constant reduction of the environmental impact of the company's processes and products and achieving the following objectives :

- ❖ Respect existing legislation and and voluntary agreements regarding their significant environmental impacts;
- ❖ Eliminate the risks to people's safety and the protection of the environment, in relation to acquired knowledge;
- ❖ Adopt a plan for the prevention and management of environmental emergencies;
- ❖ Conduct continuous monitoring of the production process and monitor environmental aspects and impacts;
- ❖ Enhance the suppliers of goods and services on the content of environmental policy;
- ❖ Communicate transparently their environmental performance to local community and customers to obtain and consolidate trust in the comparisons of the activities and products / services offered;
- ❖ Rationalize the use of natural and energy resources;
- ❖ Engage in waste management so as to favor, where possible, recycling and recycling rather than disposal.

The Management of the Company is aware that to achieve these goals, it is necessary to devote adequate economic and professional resources to research and development of processes and products that are increasingly environmentally compatible.

This environmental Policy is widespread at all levels and it is the duty of everyone to actively engage, as far as they are concerned, with the improvement of the Environmental Management System.

VIBAC S.P.A. ensures, by means of subsequent verification activities, that such policy is understood and implemented and that the stated objectives are pursued.
